Learn about us

We are a company with **more than 180 years of experience** in the manufacture of stationery products. We pioneered the introduction of products who have changed the way you organise your time and tasks: the Integral system of ring diaries and our already classic Notebook with micro-perforated sheets with coloured subsections.

Today, **we continue betting on innovation** while relying on the same 5 principles:

-  **Design.** We connect fashion and design through our pieces of stationery, diaries, writing items, school accessories, and office and desktop accessories as well as a whole universe of gift products.
-  **Adaptation.** We evolve with our environment, creating products for all kinds of likes, activities and age groups.
-  **Quality.** Manufacturing high quality products using the best materials.
-  **Responsibility.** We look after our environment and guarantee the quality of our products and services. We have the widest range of recycled and recyclable notebooks on the market, meeting the needs of an increasingly eco-conscious world. We have also joined forces to fight against excess plastic in the oceans by each year expanding our range of environmentally-friendly products made from recycled polyester material from PET (RPET) plastic bottles.

We are integrated in the business group **APLI** and together we respond to the needs of our clients; with national and international product shipment coverage. Our corporate strategy, based on quality, innovation and service as well as commitment to people and the environment, has led us to be present in more than:

 **80**
Countries where we distribute our products

 **5**
Production plants

 **6**
Subsidiaries

Environment

Committed to environment

At APLI PAPER S.A.U. group, of which we are a part, we are committed to ensuring our activities minimize their negative impact on the environment, aiming for maximum safety in our processes installations and services, paying special attention to protecting our staff, partners, customers and society.

Committed to our society

Through selective disposal of waste produced by our facilities, maintenance of our green area and immediate surroundings, respecting the limits established by current regulations on atmospheric and water emissions, and controlling our energy, water and raw material consumption, among other things.

Committed to our partners

Our partners comply with the strictest reforestation policies to obtain paper; we also work with transport agents and managers authorized by the Administration in order to ensure legal management.

Committed to our employees

Through their participation in company environmental awareness activities.

Committed to our products

Our product packaging is manufactured with recyclable material, in line with the 3R's ecological criteria: reduction, reuse and recyclability, adapting our packaging to the product to reduce the amount of waste produced. We also participate in the Spanish and German Green Dot waste management systems, while studying and improving our process in order to reduce their impact on the environment.

ECO-Stamps in this catalogue

Recycled

Product manufactured with materials recovered post-consumption.

Recyclable

The 99% of our products can be recovered and used again after consumption.

FSC®

Forest Stewardship Council®

Forest certification that promotes responsible forest management, not only environmentally but also socially and economically. The FSC® label identifies products that have been made with wood or wood derivatives from forests managed in accordance with this standard. Check out our range of FSC® certified products.

PEFC™

Programme for the Endorsement of Forest Certification Schemes™ Forest certification that promotes responsible forest management, not just environmentally, but also socially and economically. Products with this label promote sustainable management of forests.

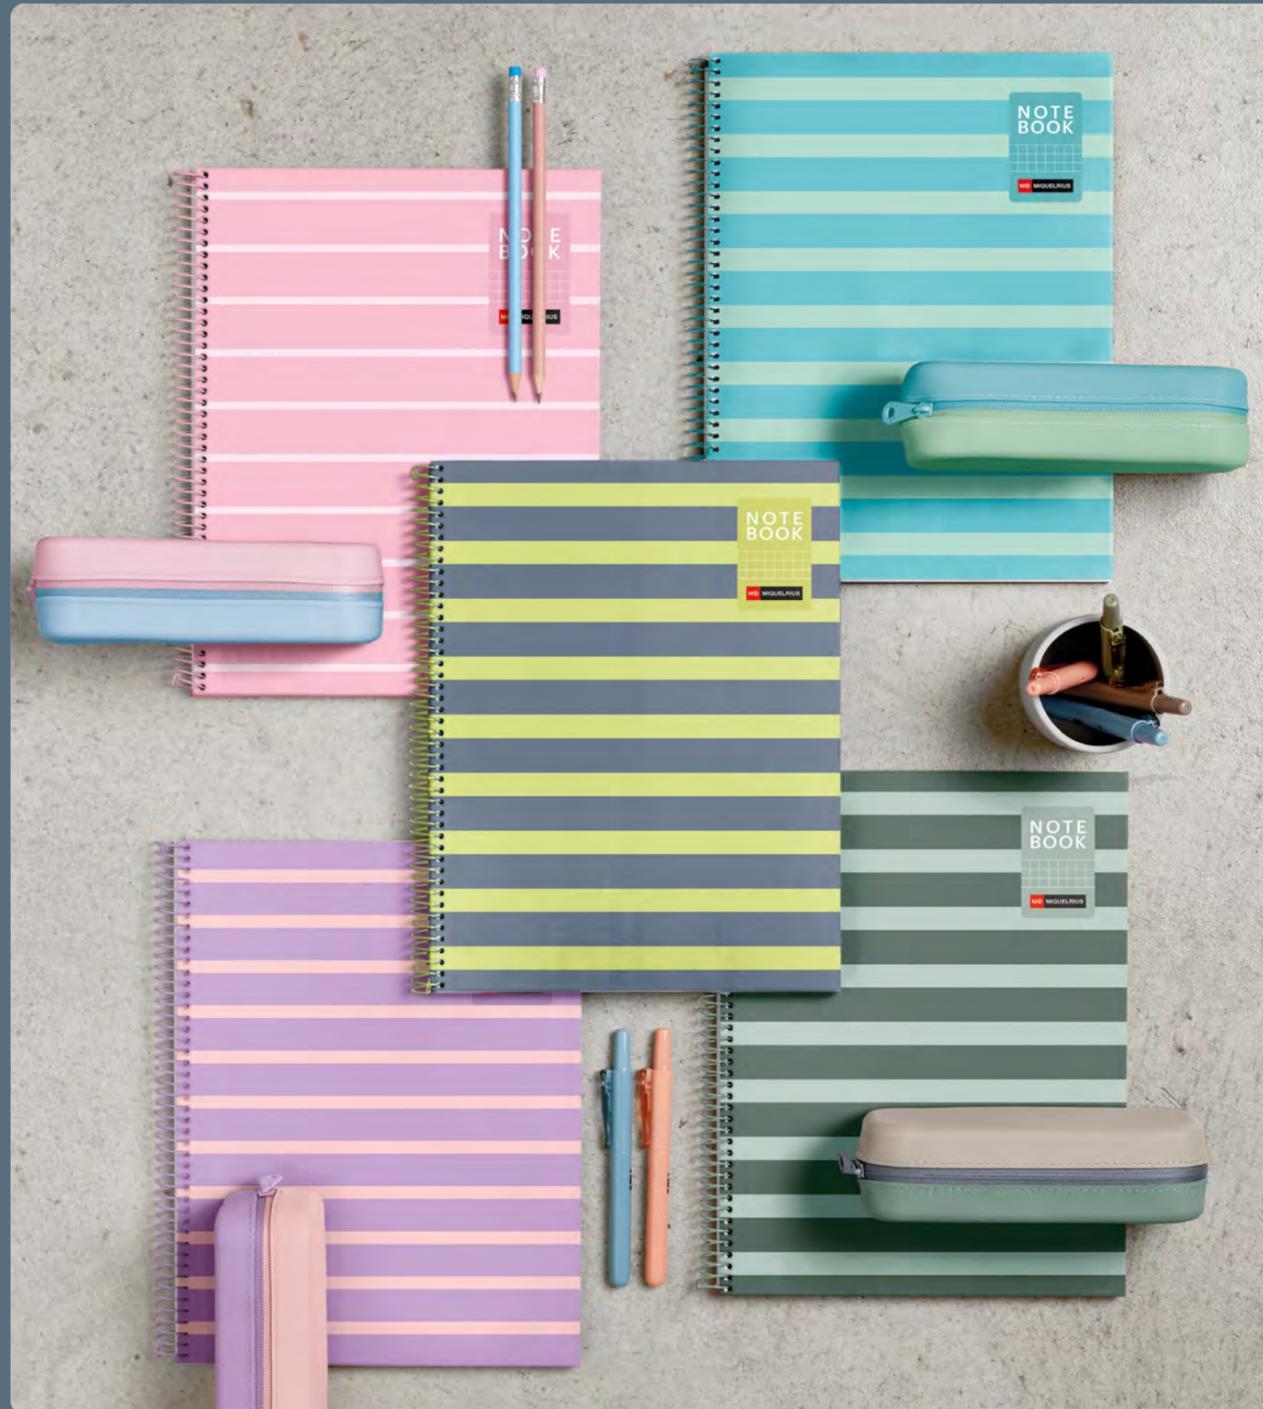

Carbon Trust CO2

Certification that ensures that the product offers a superior performance in carbon emissions through its more intelligent use and selection of natural resources.

Safety, quality and respect for the environment in the manufacturing processes for our products and services are the means by which we aim to achieve our main goal and ensure the prestige of our company in our industry and in the business world in general.

To this end, we comply to the requirements of our integrated system for quality management, environmental and health and safety, whose goals are measured to ensure continual improvement in the system's efficacy.

NOTEBOOK

NOTEBOOK

NOTEBOOKS

Miquelrius, manufacturing in Spain since 1839

All our Notebooks comply with the environmental social and economic standards that ensure the protection and sustainability of forests.

More than 1.000.000 notebooks in the hands of our customers

Our customers continue to place their trust in our notebooks to accompany them in their daily activities. More specifically, over 1.000.000 Notebooks are purchased by them every year. A notebook we created in 1989 and which was the first in the market with coloured strips on the side of the sheets and micro-perforations so they can be detached cleanly and separated to classify by subjects or projects. Moreover, we were also pioneers in bringing colour, illustration and design to the world of stationery.

**Opaque
Paper**

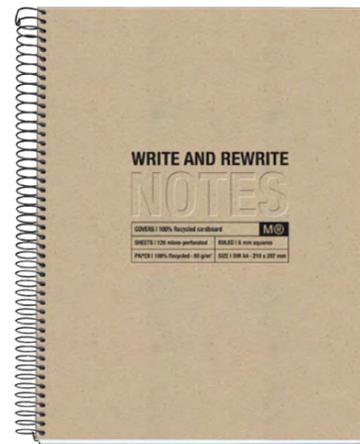

Miquelrius aims to satisfy all customers needs according to their age, preferences and trends. With our range of **NOTEBOOKS**, we offer them the opportunity to reflect their personality in their office, school or business.

NOTEBOOK EMOTIONS

Stimulate creativity with their wide range of colours, without giving up practicality and reflecting all personalities.

NOTEBOOK ECO

We are aware of the importance of taking care of the environment. The widest range of recycled and recyclable notebooks on the market.

NOTEBOOK DESIGN

Range is committed to design. Notebooks made with attention given down to the smallest detail, with exclusive designs, elegant, sober and amusing finishes.

NOTEBOOK THE ORIGINAL

With its wide variety of finishes, covers, lining and colour that adapts to each need, improving the performance of any activity.

High-quality paper

All our notebooks are made of extra **opaque paper**.

To avoid the ink passing through the page and thus facilitate writing on both sides. This paper offers an excellent **satin finish** to favour pencil or ballpen writing.

Additionally, as this finish is applied to the paper pulp, **drying is faster**, and the reflection of light is reduced, **allowing precise writing without smearing**.

The premium quality of all our types of paper guarantees soft and pleasant **texture while** at the same time offering excellent **resistance to the pressure** of the pencil, as well as when erasing.

Our paper, made from **sustainable fibres**, has FSC MIX CREDIT certification, guaranteeing that it comes from environmentally sustainable forests.

Highly durable covers

We have a large variety of **very tough and durable** covers for our customers to choose from according to their needs.

COMPACT CARDBOARD
Tough and rigid

An extra rigid cardboard cover, covered with a laminated finish (matte or glossy). Thanks to its lamination, this combination gives the notebook consistency, enabling you to write without needing support and with excellent durability.

POLYPROPYLENE
Flexible and long-lasting

Cover made of a 0.8 mm thick sheet of polypropylene. In addition to its toughness, this plastic cover provides the notebook with flexibility, lightness and water resistance.

RECYCLED CARDBOARD
Quality and commitment

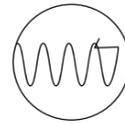

Cover made of 100% recycled cardboard (recovered after being consumed). Made of recycled and recyclable materials to reduce the environmental impact of the notebook.

Spiral with the coil-lock system

An aluminium spiral Ø 1.2 mm thick, tough and elastic. Made and dispensed continuously to the notebook with the **coil-lock system closure**.

A system that enables the notebook to be opened flat, but above all, avoids snagging with other notebooks, the backpack or clothes.

Moreover, the coil-lock closure system enables the sheets to **be opened 360°** and one cover to be put behind the other, **increasing the rigidity** of the notebook and allowing you to write without needing any more support.

Printing quality

The high-quality **offset printing** of our **lining guarantees subtle and clean lines**, which helps to highlight the writing, and facilitate reading.

We have an **extensive range of lining** (squares, lines, dots or plain) for the customer to choose the most suitable according to their needs. Additionally, our notebooks are the only ones with lines **in the same colour as the side strips**.

Our **pages are specially designed** to take and organise notes: all have a heading for the title, subject and date, and double margins for bullet points or numbers.

Sizes and linings

Different sizes are available for you to choose the most appropriate. We also supply notebooks with different rulings and numbers of pages, **from 80 to 200**.

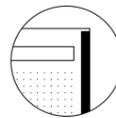

Ruling:

squared
5x5

horizontal
7mm

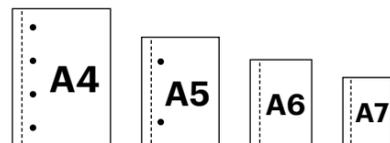

dotted

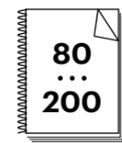

plain

Sizes:

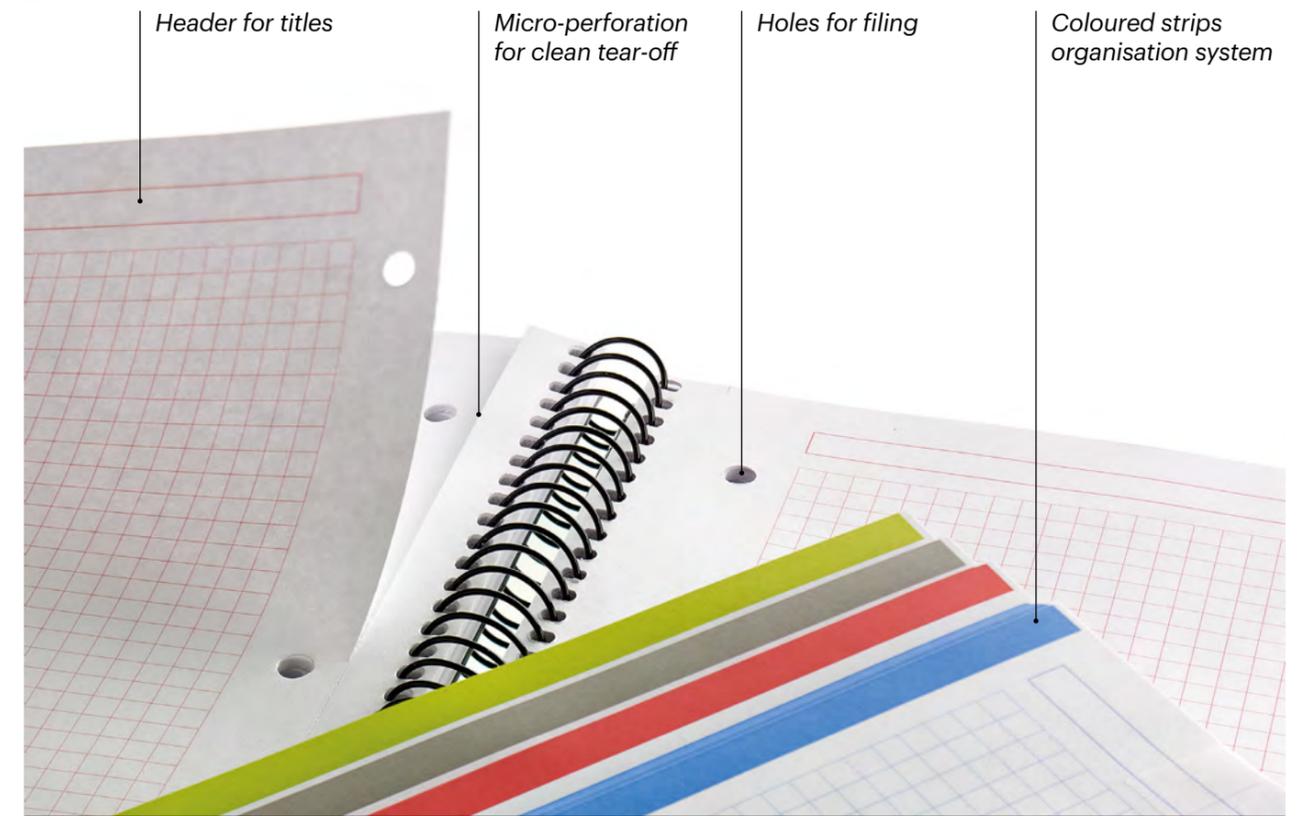

A4 (210 x 297 mm) micro-perforated, 4 holes
A5 (148 x 210 mm) micro-perforated, 2 holes
A6 (105 x 148 mm) micro-perforated, without holes
A7 (74 x 105 mm) micro-perforated, without holes

Sheets:

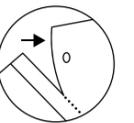

80,
100, 120,
140, 160
and 200 sheets

Cleanly detached pages

Our extensive experience manufacturing notebooks and our constant commitment to quality has enabled us to achieve **excellence in micro-perforation**.

Our fine and uniform micro-perforation **guarantees clean and easy removal of the sheets**, so that when detached from the notebook, the breakage points of the micro-perforation on the side of the page are almost invisible.

This is possible thanks to the excellent manufacturing process in **which exact pressure is applied** to the die-cutter to provide easily removable sheets.

Over 25 colours are available:
